WORK EXPERIENCE

Software Developer
CONVERGE POINT INDIA PRIVATE LIMITED

Feb 2024 – Present   📍 Chennai

- Developed custom SharePoint web parts using SPFx, React.js, TypeScript, and SASS, enhancing SharePoint Online with responsive, scalable UI components.
- Translated Figma designs into functional web parts, collaborating closely with business teams to ensure accurate and optimized implementation.
- Integrated CAML queries and PnP JS for efficient API interactions with SharePoint lists and libraries, enabling seamless data retrieval and updates.
- Leveraged Azure AI services to integrate intelligent features into SharePoint solutions, creating a reusable AI container library for streamlined AI functionality.
- Designed and developed reusable web part components to ensure consistency and efficiency across multiple products.
- Created and deployed custom SharePoint libraries, enhancing functionality and optimizing development processes across various projects.

Software Developer
FOCUSCRAFT TECH PRIVATE LIMITED

Nov 2021 – Dec 2023   📍 Chennai

- Developed functional web interfaces using HTML, CSS, JavaScript, and React, including dynamic UIs with Material UI and reusable components.
- Implemented Redux for state management, optimized functional components with hooks, and collaborated with designers to create engaging user experiences.
- Managed version control with Git and worked in Agile/Scrum environments, actively participating in stand-ups and sprint planning.
- Proficient in React Native, building cross-platform mobile apps focused on seamless functionality and design excellence.
